

ELMTREE ARCHERS

A brilliant start to 2009 for Elmtree Archers and those who attended their first shoot of the year on Sunday 11th January at Headley Wood. For once the weather was kind to us; the cold snap ended and the rain stayed away. An early start gave all the opportunity to finish on time and for some to begin their 150 mile trip home.

All the 110 participants had a great day out, “fantastic” and “great” were just some of the comments said when handing in their score cards. The course was challenging thus suiting all ages and abilities. At this time of year, due to early dusk, course layers must take into account that when using third party land, everything must be cleared away and grounds left pristine before dark. Well done to all the archers for bringing targets and pegs to the collection points, this made our job a lot easier. An even bigger thanks to all at Elmtree who helped set out the targets and with the clean up operation at the end, well done team!!

Yes, it was a new team doing the work this year as the “old timers” are now enjoying a much deserved rest after many, many years of loyal service to the club. However, it was good to know they were all on hand if needed and even better when asked to walk around and shoot the course after it had been set up; the nod of approval was given.

A big thanks to the land owner of Hedley Wood and Mr Duncan for the use of the woods and facilities. Also, well done to the caterer, Alister; tasty hot food and drinks at reasonable prices were available all day. Sorry, he has promised not to run out of milk next time.

The club were delighted that 110 archers attended the shoot despite a minority of “no shows” on the day. Please, can the “no shows” give some thought to their fellow archers; we had a lot of disappointed people on our reserve list! In future let the shoot co-ordinator know in advance if you cannot make it.

Elmtree are now looking forward to hosting 2 days of the “South West Challenge” at Ashwater, Devon on Monday 3rd and Tuesday 4th August 2009. This is new woods to us, be warned! Andy and Peter will be trying a lot harder; this will be a “challenge”.
