

SHOOT REPORT – July 26th 2009 Open Shoot.

About 60 souls turned up for our summer shoot this year and those who came expecting a challenging event were not disappointed. In fact Roger and Jan spent most of the day walking the course – they said it was keep an eye on things and get feedback – we think it was so they could avoid archers who were promising to lynch them! A measure of what was in store was given by the sight of the Ostrich (target 5) set at a 50° angle uphill and what looked like a very long way away. I knew what an effect this sight was having because when people arrived at registration they ignored me to take a quick look at the starting peg lists – everyone was hoping to avoid beginning the day on that one!

A big thanks to Roger, Wally, Jan and the rest of the course team for setting such a sneaky but shootable course consisting of 3D's, 2D's and painted hessian faces. To those intrepid people who were disappointed to find that Robo Duck was having a rest this shoot – don't despair. He will be back with a vengeance at our next shoot in November and he may have had some ducklings by then!

There was one issue of overshoot safety reported to the marshals and this was soon investigated. A big thank you also to all our visitors who kindly brought in the 3D's at the end of the shoot – it certainly made our job a lot easier.

The day was fine and dry and the cabin provoked a lot of oohs and aahs as this was the first time that it has been seen in its full glory with the new veranda in place. Well done everyone who spent a busy two days finishing this off.

Before....

.....After

Catering was of the usual high standard with food provided by Claire and Paul although Anne and her fruit cake was sorely missed.

It was nice to be able to serve customers from the comfort of the new veranda which would have kept everyone dry *if* it had rained – ah well! You can't please everyone.

Finally, thanks to Chris Butcher for allowing us to continue using his land.
