

Shoot Report

Hollywood – open shoot 27th September 2015

Well, not quite ...

Hollywood isn't a "normal club. We don't have practice nights, or an indoor range, and we can't leave targets out in the wood. The sole purpose has been to put something back into archery by putting on shoots. Also, there is a uniqueness with the hand-made 2Ds made and painted by David which are especially appreciated by everyone. We hope all of you who travelled from pretty far away thought the journey was worth it.

This was going to be our last shoot but the response from other archers wanting to help has been brilliant. Storm (Rod, Craig and Mick) provided the muscle carrying out and staking targets, and what a wonderful job they did in building steps up into the tree trunk shot down to the big bear. Thank you guys. Thanks also go to Joe and Sarah for taking over lunchtime catering. Thanks also to everyone who brought in absolutely everything from the wood, and a special thank you to Anthony Commander who almost single handedly stacked and put away the 2Ds. Star performances everyone. THANK YOU!
