

Apollo Field Archers 14th February 2016

On a chilly Valentine's Day morning, 144 archers attended a course of 36 3D's on the windswept slopes of Watership Down.

Due to the previous inclement weather, Brian the Tenant Farmer graciously volunteered to give archers a lift to the ground in his 'chuffy train', with a promise of a lift back at the end of the shoot.

Throughout the day the ground dried out suitably, which allowed for easy access to the course including the slopes, which everyone seemed to cope with ok.

From the comments received the course was laid to include every style of archer, there was a nice mixture of distances which caught a lot of out, laid by Pete as usual to be challenging but fair.

Well done to the Admin & Catering Team who received lots of appreciative comments for their service, and vast array of cakes.

To those archers who were on the waiting list and unfortunately not able to shoot, book in early next time, as we'd love to see you!

We would also like to extend our thanks and gratitude to Bob Miles & Ant Johnston for their manual labour, trying to save the integrity of the ground and to Bowmen of Warminster and South Wilts for the loan of some 3D's.

A big thank you to all the archers who attended, from Pete and the Apollo Crew.
