

# REDNEX

***SHOOT REPORT: Sunday, 12th March 2017***

**WOW! There is nothing else we can say!**

**141 Archers from 26 different clubs and those that choose to shoot as independent. An awesome response to our first event; thank you, each, and every, one of you.**

**What a day we had! The weather held, the temperature mild for early March. Forty targets set in two loops of twenty, either side of the gathering area; we Rednex were hoping for a safe and fun filled day for all of you.**

**Admin handled the registration. Catering handled the quest for breakfast. The course setters were busy running for cover. Time to populate the course.**

**Walk out groups despatched, target groups deposited at their start points; it was time...Three, two, one, GO!**

**Nothing else we could do except marshal the course and man the tea tent.**

**Happily, the day went without incident. The feedback received was all positive, with a few pointers for future improvements and suggestions about where to put the Wildebeest that are not physically possible! Above all a barrage of smiles and happy faces.**

**As you can see from the results, there were some incredible scores. What you may not have realised is that each person listed below now has a new P.B. score; your best at Rednex!**

**Thank you for your support. See you at Easter.**
