

## **Muscovy Archers: 25<sup>th</sup> Anniversary shoot, July 18<sup>th</sup> 2010.**

The course was two rounds of twenty mixed Game targets, the first circuit shot from red, white and blue pegs, the second round shot from wasp, red and blue pegs. We repaired and retouched surviving targets that we have shot over the years and, along with the usual 3Ds, there were 2D dinosaurs, medieval knight faces and Tarzan and Jane figures in various sticky situations.

The course was set in the more interesting section of our woods (for 'interesting' read 'steep') and this enabled the course setters to get in lots of challenging, up and downhill shots. The most challenging target of the day had to be the seven foot high T.Rex. It was set some seventy yards downhill of the archer, framed in a window of foliage, the last forty yards being completely dead ground. Very few of the competitors had seen it before and it must have caused quite a lot of head scratching.

The weather was good and of the eighty archers booked in on Saturday, seventy shot on the day for the awards which were our usual pewter and obsidian arrowheads. It was a very good turnout considering this was the third South West shoot in as many weeks and we shared the competitors with another shoot on the day. Everyone seemed to enjoy themselves and there were lots of compliments, so it was a very successful celebration of our first twenty five years.
