

Osprey Archers Fun Shoot 25th September

86 archers joined us for some light relief after the trials of the Nationals the week before. As normal for this shoot the seemingly popular format of the majority of the targets being twin targets offering the not quite so accurate archers the probability of scoring minus scores, possible score for any target goes from +24 to -30.

We do our best to make minus scores likely by carefully positioning the targets so that anyone going for the kill and not quite on line or length will end up in the wrong target this gives rise to plenty of laughter around the course and I have to say being requested as a marshal to please, please say an arrow has missed in order that the archer has not scored -10 is pretty unusual!

Part way around the course we seem to have a new tree species called the arrow tree that sprouted more fruit as the day progressed the picture was taken after our own club shot the course so not all was from the day.

AFB

Gents

Garfield	Thomas	Green Meadow	594
John	White	Bicton	484
Mike	Davies	Greenman	466

Ladies

Sam	Moss	S. Wilts	460
Wendy	Deane	South Hams	446
Mandy	Parnell	Herards Wood	372
