

COMPANY OF 60, SHOOT RESULTS PRINCE OF WALES OPEN SHOOT, 21 OCTOBER 2018

SHOOT REPORT

Mother Nature decided to serve up near summer's day temperatures for our autumn shoot, with 77 archers making the most of the glorious sunshine. For this competition, the 20 3Ds on our Creek course made it a very different prospect to the paper faces visiting archers had shot on the same course at our September friendly. Many archers commented that one seemingly 'straight forward' sequence of targets had caught them out by proving much harder than they looked!

From the start, our Christmas tree course posed some challenging shots, and featured a number of new 3Ds. Sadly, our famous elephant that had served us so well for many years finally had to be retired and had been replaced by an equally large and imposing photo elephant target. There were some impressive scores across a number of categories, with the new Traditional Bow Hunter class continuing to tempt archers across from HT, BB and FS.

Our next shoot will be our December 9th Mince Pie friendly, so we hope to see you there for some festive fun.
