

## Black Swan Archers Shoot Report and Scores

Following on from June's 'mud-fest' the weather was fine for our second open shoot of 2019. This allowed the 82 archers to get around the course with much more ease. The new course was set to be challenging for all styles and the feedback we got from archers seemed to suggest we pretty much got it right. The course layers had worked very hard to improve the course accessibility, building bridges and walkways and cutting in yet more steps. Our catering made sure everyone was well fed and watered and admin went without any hiccups.

I would like to take this opportunity to thank all the members of Black Swan for their help in making this open shoot run smoothly for everyone. Many of the members are pretty new to all this and it is great how well they managed everything that needed to be done.

We have received some fantastic feedback from the archers who shot the course, and a few have already signed up for our Halloween night shoot on the 2<sup>nd</sup> November.

Thank you to all who attended and made such great comments and we look forward to seeing you again soon.

Cheers

Pat Morrow (Vice-Chairman)
